

Players and Parents,

The Pittsburgh Outlaws would like to thank your child for attending the Pittsburgh Outlaws Tryouts. We are excited about the quality of players that have become interested in playing in our program. During the tryout process our coaches and program directors will be evaluating each player in many areas of skill, including but not limited to: running speed, arm strength and accuracy, hitting capabilities with respect to consistent contact and power, overall baseball instincts, and more.

After our three tryout days are complete, our staff will meet and together decide which players we would like to offer roster positions to. Unfortunately, we are not able to offer every player that tries out a roster position. **Each player will be notified by email by August 1st if they are being offered a position on one of our teams or not.** You will receive an email from Coach Joe Smiley, Assistant Program Director. We will be fielding approximately 20 teams and trying out around 400 players. Unfortunately, we are not able to call all these players in a timely fashion, so we will be utilizing email. If you receive another offer from another organization and need to know your status earlier than the above dates, please reach out to Coach Anthony or Coach Smiley and he can review your players status.

If you get an email indicating that your player has been selected for a team, the manager of that team will contact you soon afterwards. Once you commit to our program, we will deposit the nonrefundable \$600 deposit check on August 8th. This deposit is credited toward your program fees.

Thanks again for your interest in Pittsburgh Outlaws Baseball.
